Fill more tables. Pay one flat fee.

THE PROBLEM

Taking bookings in Cyprus is harder than it should be

Bookings scattered everywhere

Phone calls, Instagram DMs, WhatsApp and walk-ins — no single view of your night, and double-bookings happen.

Empty tables, costly no-shows

Without reminders or deposits, last-minute no-shows leave covers — and revenue — on the table.

Commission platforms eat margin

Global booking sites charge a fee for every cover they send. The busier you get, the more you pay.

No direct line to diners

Your guest data sits with someone else, so you can't bring customers back on your own terms.

WHAT IS DINEEASE
